

Conference on Regional Entrepreneurship and Innovation in the framework of project

EGOV_INNO: E-government services and tools from regional governments and regional development bodies to support and coordinate the regional research and innovation capital

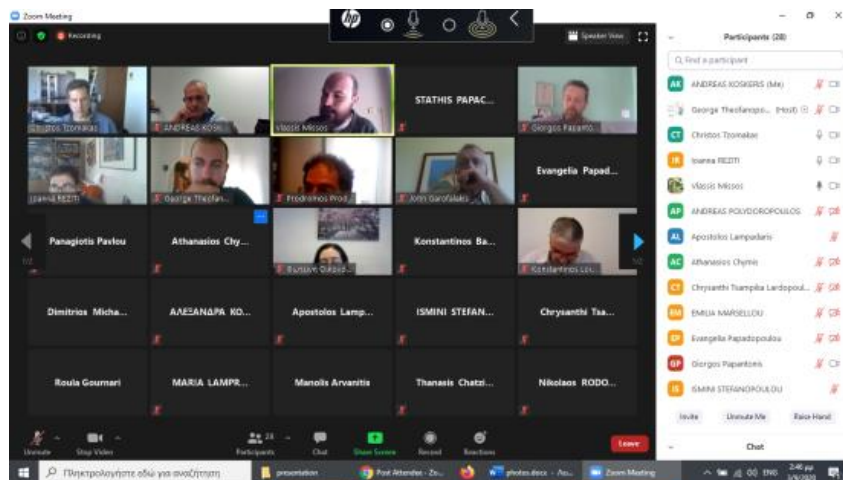

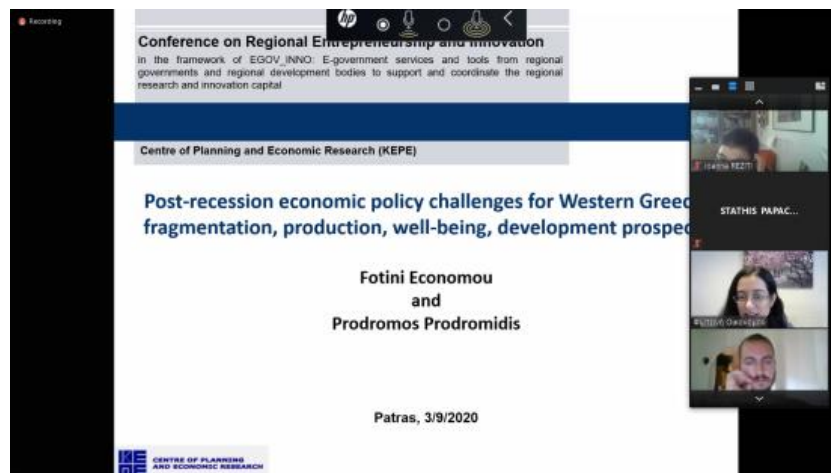

Patras, 3/9/2020

The project “Egov_INNO – E-government services and tools from regional governments and regional development bodies to support and coordinate the regional research and innovation capital” is a cross border cooperation funded by Interreg V-A Greece-Italy 2014 – 2020 Programme.

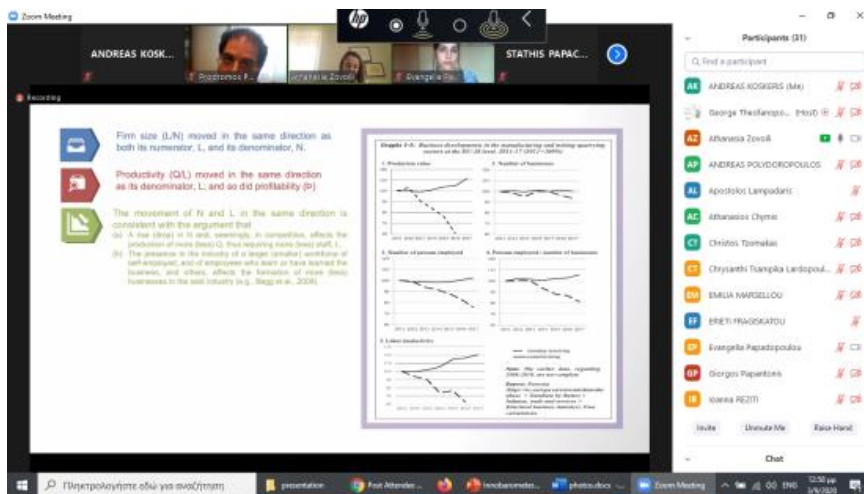

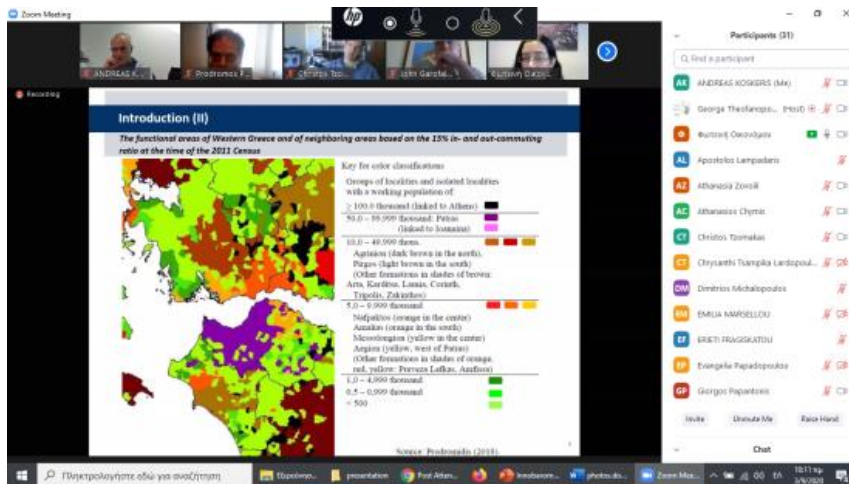

Under the framework of the egov_INNO project development, the Regional Development Fund of the Region of Western Greece and the Computer Technology Institute and Press “Diophantus” co-hosted a conference aiming to provide the members of the higher education and research community, as well as practitioners, with the opportunity to share their findings, experiences, and ideas in relation with innovative entrepreneurship supportive e-tools.

Due to the COVID-19 related measures the conference was organized online.

The topics covered regarding entrepreneurship and innovation (E&I) included:

- Theoretical models, inspiring cases, good practices.
- The measurement of entrepreneurship and/or innovation.
- The use of surveys, official statistics and other data for E&I policy purposes.
- Useful sectorial, local, regional, intra-regional, state-wide, cross-border, international macroeconomic analyses.
- The inception and implementation of systems that advance E&I.
- The development of tools, services, and observatories as means to further support E&I.
- The role of any of the following in advancing E&I: institutions, culture, education, investments, funding, technology, science parks, incubators/accelerators, market/non-market ecosystems and/or specific E&I policies.
- The impact of E&I on economic and social development and the environment.

At the end of the conference a specialized session was organized aiming to present to SMEs and SMEs support organizations the use of the e-tools developed in the project framework. The tools are available under the link: www.egovinno.rdfrwg.gr .
